Thriving in our New Environment

Bay Area Health Trust's response to the evolving business demands resulting from the COVID-19 pandemic

What is Bay Area Health Trust?

The Trust was established in 2002 as an independent, private sector entity whose mandate includes delivering value to it's beneficiaries.

Bay Area Research Logistics is a clinical trial logistical partner for leading researchers and pharmaceutical companies throughout North America.

The company's growth has focused on providing specialized services originating from research institutions, biotech companies, pharmaceutical organizations and investigator-initiated trials.
