Company Story

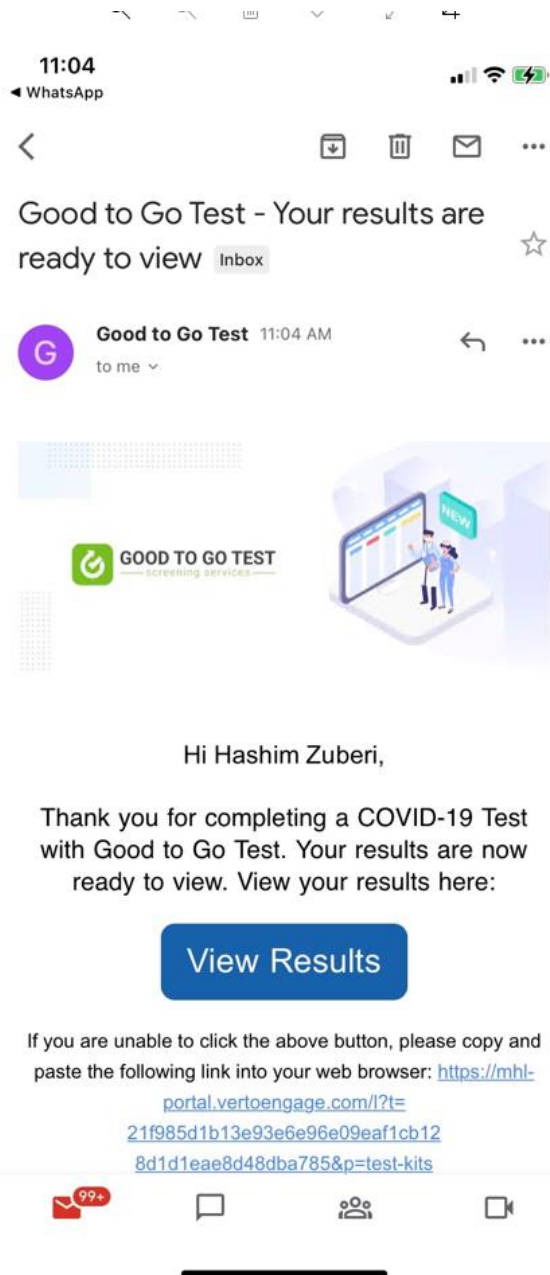

Good To Go Test's mission is to meet the demands of the greater Hamilton area to provide convenient access to asymptomatic COVID-19 tests through local partnerships. Good To Go Test is a cost-effective service powered by a COVID-19 diagnostic lab using the safest, highest quality test components combined with accredited lab analysis.

Reasons to Believe

Good To Go Test uses the state-of-the-art McMaster Molecular Medium(MMM) in its PCR test kits. MMM is a safer, time saving medium that developed in Hamilton and manufactured in Ontario and has provided over 3 million tests to Ontario Health for use at assessment centres. Good To Go Test will expand accessibility to local testing and expand brand recognition of MMM.

Customer Experience

- Go to the website www.GoodToGoTest.ca - very easy to navigate
- Pick the location that is best and choose the required test
- Book the appointment time that is convenient
- Provide consent and pay for the test – email confirmation sent
- Arrive at pharmacy site, test administered by pharmacist (around 10 minutes in total)
- PCR Test – sent to the lab, results and certificate provided to the customer by text and email in around 24 hours
- Rapid Antigen Test – 15-minute process time in the pharmacy. Results and certificate is generated onsite and sent via text and email immediately

January 26, 2022

The following client completed a SARS CoV-2 screening test:

Client's Legal Name

TEST, TEST

Date of Birth:

OCTOBER 25, 1992

Phone number:

905-510-9269

Email:

FRANCC@BAHT.CA

Address:

1403 ST. CLAIR AVE, OAKVILLE, ON L6M4C2

Passport Number:

Date/Time of Sample Collection:

January 26, 2022 1:47 PM

Date/Time of Result:

January 26, 2022 1:48 PM

Test Type:

Rapid Antigen Test

Collection Method:

Nasal Swab

Equipment Used:

Abbott Panbio COVID-19 Rapid Test

Unique Test ID:

CF 1969/06/02 @1:30PM

The result of your test was:

 **NEGATIVE (Not-Detected)**

Your test has not detected antigens for SARS-CoV-2, the virus that causes the coronavirus disease (also called COVID-19) a respiratory illness. A negative test means that the virus was not present in the sample we collected. Your results suggest you were negative at the time of testing. A false negative result is possible and should be considered if you have had recent exposure to the virus along with symptoms consistent with COVID-19. If you require further information, please contact your local public health unit or info@goodtogotest.ca.
